

Juliette 1200C

The Juliette 1200C by Sydney Woodfire Ovens is the entry level to the commercial range featuring a 1200mm internal cooking area. This commercial oven has the same shell and cooking surface as the Juliette 1200 but its walls are much thicker giving it better cooking qualities and heat retention. Constructed with double insulation and denser materials to withstand constant use. It is the perfect size for small to medium restaurants and cafes and comfortably holds up to 6-7 x 12" pizzas.

Please Note: It is highly recommended that SWO or approved installers install our commercial range of ovens.

A site inspection is highly recommended - Call us now, we will come to site, measure up and provide you with an obligation free quote.

Do-It-Yourself Vs Qualified Installer - Depending on your own skills when it comes to commercial projects, you may decide to choose the Do-It-Yourself option - or - you can simply have one of our qualified installers fit to completion. Our team of skilled tradesmen have many years experience working in the construction and installation of wood fired ovens and our workmanship is guaranteed - 12 months warranty on workmanship.

Construction - All our ovens are manufactured from durable raw materials, premium quality high strength refractory cement, proudly Australian made and are hand-crafted on our premises.

Our Finish - We install our wood fired ovens complete with a rendered sponge finish - but it doesn't have to end there - you can get creative with a range of finishing touches, from paint to mosaic, explore your options to best suit your decor.

Base - A stand for the base is required and available upon request. Whether it is a Hebel, steel or custom base, fixed or mobile, ask us about our designs and let us provide you with options to meet within your budget.
